

*City of MONTGOMERY Alabama*

To Whom It May Concern:

Jordan Demolition Company of Montgomery, Alabama, has been under contract with the City of Montgomery for demolition work for a period of approximately three (3) years. Within this time, this firm has completed the demolition of approximately 25 masonry buildings in the downtown business district with complete success.

Most of this work was in high-risk areas involving pedestrian and vehicular traffic. Throughout all work completed with this City, this firm has always exhibited efficient manpower, equipment and supervision to complete work in a satisfactory manner. It has been a pleasure to work with Mr. John Jordan and others of the firm. I have always found them to cooperate . . . even beyond the extent of the contract at times in order to keep schedule with their work.

More details about this firm with the City of Montgomery will be made available upon request.

Guthrie Jeffcoat  
Assistant City Engineer
